## DETAILED ACTION

### *Specification*

1. The substitute specification filed 1/9/2003 has not been entered because it does not conform to 37 CFR 1.125(b) because: the statement as to a lack of new matter under 37 CFR 1.125(b) is missing and a marked-up copy of the substitute specification has not been supplied.

A substitute specification filed under 37 CFR 1.125(a) must only contain subject matter from the original specification and any previously entered amendment under 37 CFR 1.121. If the substitute specification contains additional subject matter not of record, the substitute specification must be filed under 37 CFR 1.125(b) and must be accompanied by: 1) a statement that the substitute specification contains no new matter; and 2) a marked-up copy showing the amendments to be made via the substitute specification relative to the specification at the time the substitute specification is filed.

2. The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Misnumbered new claims 1 and 2 have been renumbered claims 11 and 12.

A separate amendment should be submitted and includes the cancellation of original claims 1-10.

Art Unit: 2821

3. The applicant is requested to provide a translation of the Belgium patent (BE 1003660) which is cited in the international search report.
4. The original claims 1-10 are still rejected as in the previous office action.
